

## Falling

Tears fill her eyes  
As she says her last goodbye  
She fakes one more smile  
She doesn't want me to see her cry

Pain reaches inside  
This broken heart of mine  
But the hands of fate are tight  
And the hands of faith are tired

I can see her falling  
But she can't see the ground  
She can see me dying  
Does she even mind?  
I will reach you to teach you  
The bitterness of loss  
I will haunt you then hunt you  
Is this the end of us?

You chased your dreams away  
While mine are here to stay  
A treasure that's lost and found  
A pleasure that stays around

You turn that key again  
In this dirty hole of shame  
The strings of hope turn loose  
When there's nothing left to lose

I'll wipe your tears, I'll bury your fears  
Every time you bleed  
I'll hold you near cos you're my dear  
You're all I ever need

I can see her falling  
She's gonna hit the ground  
She can see me dying  
She doesn't even mind

## Red Rivers

It's not my blood it's my joy  
Tonight my love you're in control  
Get inside and just let it go

Serpents will hide in your hands  
And my blood is their prey  
Get inside and just let it flow

Red Rivers flow  
You can die in my hands  
As my sadness descends  
Red rivers

Wear your heart on your sleeve  
Let your blood take a leave  
Raise this flame  
And just let it glow

Pleasure can't beat my own pain  
Cos my pain keeps me sane  
Take the blame and just let it flow

Red Rivers Flow  
Can't you see it my dear  
I am dying right here  
Red rivers

Dagger dagger dagger away  
A broken heart feels no pain  
She's a canvas for your art  
Tear her try to reach her heart

## SAVE ME

These are the promised early graves  
I'm facing my darkest days  
I'm sinking into a deeper hole  
As I'm losing all my grace  
I thought I could live with it  
By hiding behind my smile  
I shot myself in my own leg  
So I could take a break for a while

So come and save me save me  
I'm lost here all over again  
Feel me feed me  
Come and ease my pain  
Make me, break me  
Start all over again  
Love me, hate me  
Do I even care?

Hurt me so I can tell myself

Maybe I was right  
Love me so I can forget myself  
And think of you for a while  
Do I really hate myself?  
You think that's just a lie  
Would it make things easier  
If only I could die

Is it too soon to let you go?  
I know the cuts feel a little sore  
Soon you will learn  
You've gotta stand on your own  
Soon you will learn  
You're all alone

### **Dark Cube**

Take me all the way  
I'm not here to stay  
Been there and done it all  
Never lost control

A loaded gun to my head  
Will she find me dead?  
A smoking gun can be fun  
When the bullet's on the run

Caress my brain  
Run inside my vein  
Down the memory lane  
Before I go insane

Panic leads my way  
Sail these shores of grey  
As the greed will kill us all  
United we fall

Sugar-coated pain  
Your bar-coded name  
I'll put you down to shame  
Include me in your game  
If only I could choose  
That one game I could lose  
I'll tempt my fate again  
And face this bitter end

### **Black wooden nest**

Live to die another day  
I've seen you drive my sanity away  
I've been there I've done it all  
Gone all the way to see you fall

I've built you a black wooden nest  
I'll lay you down for your final rest

Close your eyes feel the joy  
This nothingness means nothing at all

Feel my anguish ease my pain  
I'm not going down that road again  
Pull me under erase my grace  
You've chosen my path let me choose my pace

This tired candle will burn your wings  
Love will die just like kings and queens  
Hold it down don't let it breathe  
Where there is pride there'll be defeat

Come and find me in my darkest place  
Let my secrets bleed on your face

### **Grey**

I Stare in the mirror  
I see myself disappear  
Like a withered flower  
Longing for a tear  
I stare in the mirror  
I see myself fade away  
Like a withered flower  
Dying in fear

As my sorrow turns to tears  
Will you stay will you help me breathe?  
As my sorrow turns to tears  
Will you stay? Will you help me?

Find me another day  
Where all I see is colored grey  
Let's change and find a different way  
Take your time let me be your prey

Turn it loose just let it fly  
Cut the ties don't let it die  
You've given it wings  
Just let it fly  
Spread its wings and brighten the sky

Somehow Someday  
We'll find a way  
But today let's enjoy this grey

I know it's hard to feel again  
Embrace your soul  
Release this pain

### **Broken Smile**

I'm not sure if it's gonna work  
Maybe I need some time alone

All the little things she said  
All the little pills I take

Maybe it's just a little dream for me  
Some kind of little fantasy  
Maybe it's your little game  
That I'm not prepared to play

Did you see those little lights?  
They got dimmed by the autumn winds  
Did you feel some glimmer of hope  
It got killed by the winter breeze

Did you see that broken smile?  
And how it still keeps on smiling  
Did you see that broken man?  
And how quiet he was dying

Maybe your life is supposed to be this way  
Painted in some kind of deeper Grey  
Or maybe it's just me  
It's the way I choose to see

### **My Own Bitter Requiem**

These strings are a mask, my life is a task  
Just a reflection from my mirror's point of view  
Face down I stare at the ground  
Into the eyes of my future

Cyanide on Saturday night  
Some contrasts cannot be defined  
A bitter-sweet melody  
Come harmonize my agony

Once again I trust in you  
To share with you my point of view  
But it seems to me, that you've moved on  
And I'm left here all on my own

Falling down at the speed of sound  
I wanna reach to the bottom of your mind  
Swim in sorrow drown in pain again  
I wanna be the coldest winds  
Descending on your fragile wings  
Sending chills  
Down your spine again

Reality will finally take its toll  
Pull you under turn you cold, what a shame  
Your beating heart won't hear the call  
Giving up to the eternal fall instead

I wanna reach to the highest ground  
I'll trade my soul to feel the crown on my head

My own bitter requiem  
Will shine on you my lonely friend  
So Let's pray

#### **Kilikia (lyrics, Armenian)**

Երբոր բացվին դռներն հուսո,  
Եվ մեր երկրեն փախ տա ձմեռ,  
Չքնաղ երկիրն մեր Արմենիո,-  
Երբ փայլէ յուր քաղցրիկ օրեր.  
Երբոր ծիծառն իր բույն դառնա,  
Երբոր ծառերն հագնին տերև՝  
Ցանկամ տեսնել զիմ Կիլիկիա,  
Աշխարհ՝ որ ինձ ետուր արև:

Հասակ մը կա մեր կենաց մեջ,  
Ուր ամենայն իդձ կավարտի.  
Հասակ մը, ուր հոգին ի տենչ՝  
Հիշատակաց յուր կարտի.  
Հորժամ քնարս իմ ցրտանա,  
Սիրույն տալով վերջին բարև՝  
Երթամ ննջեմ զիմ Կիլիկիա,  
Աշխարհ՝ որ ինձ ետուր արև:

#### **Kilikia (lyrics, English translation)**

When doors of hope are opened wide,  
And dreary winter flees away,  
Our beauteous Armenia  
Beams forth in glad and smiling day;  
When swallows to their nests return  
And trees put on their leaves so bright  
I yearn for my Kilikia,  
The land where first I saw the light.

There comes to each a time of life  
When all our hopes have gone at last,  
The poor soul longs and strives no more;  
And dwells alone upon the past;  
The, when my breaking harp, unstrung  
Shall sing to hope a last good-night,  
I'll sleep in my Kilikia,  
The land where I first saw the light.
